Faculty

John R. Kupcha, BSI *Plumbing and Fire Protection Design Consultant, N.Y.S. Certified Building Safety and Fire Inspector*

Mr. John Kupcha has over 30 years of practical experience as a plumbing and fire protection designer developing detail oriented system design for commercial, residential and transit projects in the public and private sectors. He started his career as a junior draftsman for a consulting engineering firm in 1984 and worked for 16 years in consulting engineering firms; he left fulltime positions to experience the challenges of sole proprietorship. During that time, he was able to develop his communication, coordination and administration skills through firsthand experience working directly with different entities in the construction industry. His accomplishments include being awarded a certificate of appreciation for assisting in the founding of the 62nd Chapter of the American Society of Plumbing Engineers (A.S.P.E.); acting as founding vice president (elect) A.S.P.E. Long Island NY Chapter; acting as lead design engineer for four award-winning projects; acting as lead design engineer for two projects classified as LEED Silver and one project classified as LEED Gold, and acting as lead plumbing and fire protection design engineer on the Arcadis team that proposed the design intent for the proposed \$10 billion Port Authority Bus Terminal in Midtown Manhattan. Mr. Kupcha is also a NYS-certified building safety and fire inspector which will be upgraded to the NYS code enforcement official certification in May 2018.

Continuing Education Credit Information

This seminar is open to the public and offers up to 6.5 HSW continuing education hours to architects and 6.5 continuing education hours to professional engineers in New York.

HalfMoon Education is deemed a New York-approved continuing education provider for architects via its affiliation with the American Institute of Architects. HalfMoon Education is an approved continuing education provider for New York engineers (NYSED Sponsor No. 35).

This event is approved by the American Institute of Architects for 6.5 HSW Learning Units (Sponsor No. J885). Only full attendance can be reported to the AIA/CES.

Architects and engineers seeking continuing education credit in other states will be able to claim the hours earned at this seminar, in most cases. Refer to specific states rules to determine eligibility.

The International Code Council has approved this event for .65 CEUs in the specialty area of Building.

This event offers a non-credit continuing education opportunity to construction contractors. It has not been approved by any state with a continuing education requirement for contractors.

Attendance will be monitored, and attendance certificates will be available after the seminar for most individuals who complete the entire event. Attendance certificates not available at the seminar will be mailed to participants within fifteen business days.
