

Credit Information

Designing for Accessible Pedestrian Facilities

This webinar offers 6.5 PDHs to professional engineers and 6.5 HSW continuing education hours to architects and landscape architects licensed in all states (landscape architect credit not available in New Jersey or Florida).

HalfMoon Education is an approved continuing education sponsor for engineers in Florida (Provider No. 0004647), Indiana (License No. CE21700059), Maryland, New Jersey (Approval No. 24GP00000700), and North Carolina (S-0130). HalfMoon Education is deemed an approved continuing education sponsor for New York engineers and architects via its registration with the American Institute of Architects Continuing Education System (Regulations of the Commissioner §68.14(i)(2) and §69.6(i)(2)). Other states do not preapprove continuing education providers or courses.

The American Institute of Architects Continuing Education System has approved this course for 6.5 LU | HSW (Sponsor No. J885).

The Landscape Architecture Continuing Education System has approved this course for 6.5 HSW PDHs. Only full participation is reportable to the LA CES.

The International Code Council has approved this event for .65 CEUs in the specialty area of Accessibility (Preferred Provider No. 1232).

This course is registered with the American Planner Association AICP for CM | 6.5 for Certified Planners (Course No. 9217683).

Visit this course listing at www.halfmoonseminars.org for updates on pending credits.

Completion certificates will be awarded to participants who complete this event, respond to all prompts, and earn a passing score (80%) on the quiz that follows the presentation (multiple attempts allowed).

Designing for Accessibility under ADA Standards and IBC

This webinar offers 7.0 PDHs to professional engineers and 7.0 HSW continuing education hours to architects licensed in all states.

HalfMoon Education is an approved continuing education sponsor for engineers in Florida (Provider No. 0004647), Indiana (License No. CE21700059), Maryland, New Jersey (Approval No. 24GP00000700), and North Carolina (S-0130). HalfMoon Education is deemed an approved continuing education sponsor for New York engineers and architects via its registration with the American Institute of Architects Continuing Education System (Regulations of the Commissioner §68.14(i)(2) and §69.6(i)(2)). Other states do not preapprove continuing education providers or courses.

The American Institute of Architects Continuing Education System has approved this course for 7.0 LU | HSW (Sponsor No. J885). Only full participation is reportable to the AIA/CES.

The International Code Council has approved this event for .7 CEUs in the specialty area of Accessibility (Preferred Provider No. 1232).

Completion certificates will be awarded to participants who complete this event, respond to all prompts, and earn a passing score (80%) on the quiz that follows the presentation (multiple attempts allowed).

Designing for Accessible Pedestrian Facilities

Friday, August 20, 2021 | 9:00 am - 4:30 pm CDT (incl. a 30-min break)
Tuition: \$289 per registrant, \$199 per registrant for three or more

Credits: Professional Engineers: 6.5 PDHs Architects: 6.5 HSW CE Hours
AIA: 6.5 LU | HSW International Code Council: .65 CEUs (Accessibility)
Landscape Architects: 6.5 HSW PDHs LA CES: 6.5 HSW PDHs
Certified Planners/AICP: CM | 6.5 CEUs

Agenda		
Complying with Federal and State Requirements and Goals for Accessible Pedestrian Facilities		<i>G. Dea</i>
The Americans with Disabilities Act (ADA)		
The Intermodal Surface Transportation Efficiency Act (ISTEA)		
The Transportation Equity Act for the 21st Century (TEA-21)		
Complete streets initiative		
State and local legislation		
Building codes and standards		
Transportation Planning and Public Involvement		<i>G. Lueck</i>
Entities and facilities that are covered		
Scoping requirements	The transportation planning process	
Seeking public input	Sources of funding	
Designing Roadways for Pedestrian Access		<i>G. Lueck</i>
Roadways as barriers to pedestrian travel		
Roadway design speeds and roadway widths		
Curbs and intersection design	Roundabouts and entrance ramps	
Sightlines	Pedestrian/vehicle separation	
Speed control		
Designing Sidewalks		<i>J. Lardizabal</i>
Purposes of sidewalks	Widths, slopes and grade	
Surface materials	Driveways	
Obstructions	Walkways in rural areas	
Accessible Pedestrian Facility Design		<i>J. Lardizabal</i>
Designing for mobility devices		<i>G. Lueck</i>
Designing for the visually impaired		
Pedestrian crossings	Signals and signage	
Markings and lighting		

Presented by
Glenn Dea, AIA, ADAC, CASp *President of Collaborative Access Studio*
Employed in the architecture and construction industry since 1988, Glenn is a licensed architect in the states of California and Utah and is an ICC-certified accessibility inspector/ plans examiner. Since 2001, Glenn’s practice has focused on compliance with federal and state accessibility standards, Americans with Disabilities Act (ADA) transition plan services, and accessible design covering buildings, sites, and pedestrian facilities in public rights-of-way. This has encompassed accessibility evaluations, plan reviews, and code analyses for numerous corporate, education, and governmental clients.

George Lueck, P.E. has 17 years of experience with the Texas Department of Transportation (TxDOT). He started his career performing design and surveying for a variety of roadway projects ranging from farm-to-market roads, urban roadways and high design speed facilities in the Waco district. He later transferred to the construction division, where he provided oversight to statewide districts in the areas of construction project management, construction engineering, inspection and contract claims. After serving in this capacity for over nine years, George transferred to the transportation planning division. As assistant director of traffic analysis, he oversaw transportation data collection and reporting, corridor-level plans, and travel demand modeling. He then served the City of Killeen for 11 years as Assistant City

Engineer and Director of Transportation. George had oversight of all operation of the city’s transportation system. He was also charged with ensuring that the city’s transportation system was planned, constructed and maintained in a cost-effective manner to effectively address the region’s growing safety, mobility and reliability needs.

Jesús “Chuy” Lardizábal, RAS has over 25 years in ADA and accessibility compliance, and he founded Altura Solutions in 2006 with one focus in mind: accessibility for all. He has grown Altura Solutions into a nationally recognized firm, known as the ADA expert and the leading firm for State of Texas Registered Accessibility Specialists (RAS). Chuy’s unique professional background ranges from engineering design and construction project management to City of Austin ADA program manager and chair to the Austin Mayor’s Committee for People with Disabilities. Mr. Lardizábal is a guest lecturer at the University of Texas School of Architecture and a past presenter at the National ADA Symposium, and national conferences such as the American Society of Landscape Architects (ASLA). As a participant in successful defenses mounted for cities’ accessibility legal claims, he is a highly sought-after subject matter expert in ADA-related lawsuits. He will provide leadership to the project team, oversee the overall scope of work, and be the point of contact for County staff. A project team lead for numerous ADA Transition Plans nationwide, Chuy is well-versed in all aspects of delivering successful ADA Transition Plan projects.

Designing for Accessibility under ADA Standards and IBC

Tuesday, August 24, 2021 | 8:30 am - 12:15 pm CDT (incl. a 15-min break)
Wednesday, August 25, 2021 | 8:30 am - 12:15 pm CDT (incl. a 15-min break)
Tuition: \$289 per registrant, \$199 per registrant for three or more

Credits: Professional Engineers: 7.0 PDHs Architects: 7.0 HSW CE Hours
AIA: 7.0 LU | HSW International Code Council: .7 CEUs (Accessibility)

Agenda Day One	
Complying with Federal and State Accessibility Requirements	
History and development of the International Building Code (IBC)	
Development of the Americans with Disabilities Act Standards for Accessible Design	
Relationship between ADA federal requirements and IBC:	
which code applies to which project?	
Entities and facilities that are covered	Scoping requirements
Readily-achievable barrier removal	Alterations
New construction	New policies and procedures
Safe harbors	

Agenda Day Two	
Meeting Standards in ADA Standards and the IBC	
Path of travel	Accessible parking
Exterior accessible routes	Ramps and stairways
Entrances and doors	Interior accessible routes
Accessible toilet facilities	Showers
Drinking fountains	Signage standards
Accessible kitchen facilities	Assembly areas
Assistive listening systems	

Reviewing New Materials/Technologies and Anticipated Developments in Codes/Standards

Presented by
Kristi J. Avalos *President and CEO of Accessology Too, LLC*
Kristi is president and CEO of Accessology Too, LLC, a firm dedicated to providing consulting services to building owners, architects, municipalities and company owners regarding compliance with state and federal disability laws. Kristi founded Accessology in 1990 after 12 years in the airline industry, where she played a crucial role in ensuring industry compliance with the Air Carrier Access Act (ACAA). Since then, Accessology has grown to provide not only state plan reviews and inspections, but also national and international consulting services. Considered a true expert in her field, Kristi is also a sought-after witness for ADA/ACAA legal cases and has been named on more than 40 cases nationwide. Recognizing the value of educating others on the importance of removing attitudinal and architectural barriers, she proudly offers training on both federal and state accessibility standards throughout the US.
