

About HalfMoon Education

Who We Are:

We are a non-profit continuing education provider located in Eau Claire, WI. We began in 1996, as HalfMoon LLC, providing high-quality continuing education seminars to professionals. In 2012, HalfMoon was transferred from HalfMoon LLC to the new not-for-profit organization, HalfMoon Education Inc. Currently, we provide nationwide, regional, and state-specific programs in all 50 states.

What We Offer:

We provide high quality, up-to-date continuing education programs for engineers, architects, landscape architects, land surveyors, attorneys, paralegals, accountants, and more. We want our programs to be current and informative. All programs in this brochure are offered as live-webinars, allowing you to interact directly with the instructors and ask questions. If you're unable to attend the live-webinar, you can order the program as an on-demand recording to watch on your own time.

What We Believe In:

Our goal is to offer the highest quality continuing education on the market. We take pride in our programs being current, relevant, and applicable to your professional life. We care about the health of our environment and communities, and we strive to continue to reduce our paper mailings and increase environmentally friendly forms of marketing. You may notice fewer paper brochures from us in the future, and we encourage you to sign up for our email list to receive our e-brochures. We will never sell your email address to any advertisers or other parties.

What Makes Us Different:

We are always developing new content and holding updated versions of popular courses. Unlike many companies that sell continuing education programs that are 5-10 years old, we retire our recordings when they hit two years old. We take pride in our on-site customer service and all programs contain our satisfaction guarantee. If you are dissatisfied with your experience, our friendly staff will work with you to find a way to make the situation right. We want to be your trusted partner in continuing education and we truly appreciate you being our customer.

Can't Attend? Order these Webinars as an On-Demand Packages!

Recordings of these webinars are available for purchase. See details online for more information and please refer to specific state licensing rules or certification requirements to determine if this learning method is eligible for continuing education credit.

Save up to 31% on Tuition!
