

About HalfMoon Education

Who We Are:

We are a non-profit continuing education provider located in Eau Claire, Wisconsin. We began in 1996, as HalfMoon LLC, providing high-quality continuing education seminars to professionals. In 2012, HalfMoon reorganized into a new not-for-profit organization, HalfMoon Education Inc. For the past 28 years we have been providing nationwide, regional, and state-specific programs in all 50 states.

What We Offer:

We provide high-quality, up-to-date continuing education programs for engineers, architects, landscape architects, land surveyors, attorneys, paralegals, accountants, and more. All programs in this brochure are offered as live-webinars, allowing you to interact directly with the instructors and ask questions. If you're unable to attend the live-webinar, you can order most of the programs as on-demand recordings to watch on your own time.

What We Believe In:

Our goal is to offer the highest quality continuing education on the market. We take pride in our programs being current, relevant, and applicable to your professional life. We care about the health of our environment and communities, and we are reducing our paper mailings and increasing environmentally friendly forms of marketing. You can help us reduce our paper mailings by signing up for our email list to receive our e-brochures. We will never sell your email address to any advertisers or other parties.

What Makes Us Different:

We are always developing new content and holding updated versions of popular courses. Unlike many companies that sell continuing education programs that are 5-10 years old, we retire our recordings when they hit 2 years old. We take pride in our on-site customer service and all programs include our satisfaction guarantee. If you are dissatisfied with your experience, our friendly staff will work with you to find a way to make the situation right. We want to be your trusted partner in continuing education and we truly appreciate you being our customer.

**Can't Attend?
Order Most of These Webinars as an On-Demand Packages!**

Recordings of most of these webinars are available for purchase. See details online for more information and please refer to specific state licensing rules or certification requirements to determine if this learning method is eligible for continuing education credit.

Save up to 31% on Tuition!
